

# Crushing and Screening Solutions

## Our Offerings

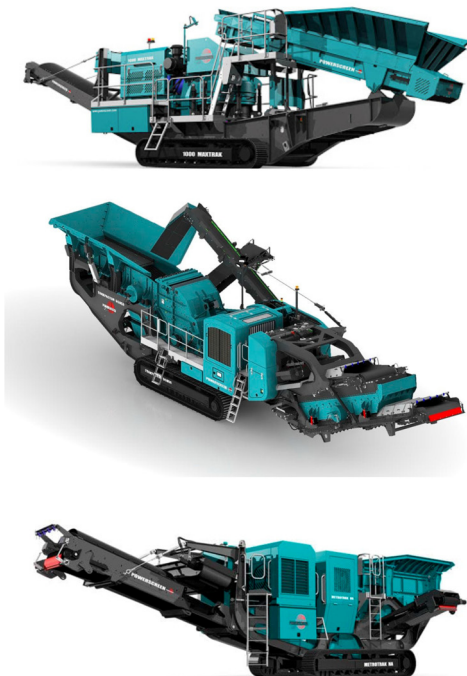

Powerscreen with a rich heritage of design and excellence is a leading force in the crushing, screening and conveying solutions. Voltas Mining & Construction equipment division is the flagship Indian dealer for Terex Powerscreen products and takes pride in selling more than 2000 Powerscreen products in last two decades provide continuing customer support for machines, parts and service to ensure optimum performance.

## Product Range

**Crushers** - Our range of jaw, impact, and cone crushers boast excellent productivity and reliability all of which is supported by our worldwide Customer Support Services.

**Screens** - Our varied selection of screening wear parts and spares for the complete current range of Powerscreen screens including Warrior, Chieftain and H-Ranges.

**Conveyors** - Our range of mobile conveyors are designed to work in conjunction with the entire range of Powerscreen crushing and screening equipment.

## Crushing & Screening Solutions

Voltas Crushing & Screening Solutions is a one stop hub where a Crusher owner can enhance the productivity from his Crushing and Screening business. Our Crushing and Screening solutions aims at minimizing downtime, increase capacity, lower your cost per ton or meet specific size-reduction requirements.

At Voltas Crushing and Screening Solutions we strive at implementing a preventive and predictive maintenance program and this helps our customers extend the residual life and performance of the crushers.

At Voltas we specialize in Maintenance solutions and we offer a host of services:

- Machine Audit and inspection services
- Supervisory services
- Maintenance planning and kits
- Onsite maintenance, installations, and upgrades
- Offsite repairs and refurbishments
- Parts optimization
