

Voltas

Voltas is India's No. 1 air conditioning company and one of the world's premier engineering solutions providers.

Part of the Tata group of companies, Voltas Limited was established in 1954, with a focus on delivering smart, best-in-class business solutions. With over 5,000 employees spread across its head-quarters in India, the Middle East, Singapore and Africa; Voltas is amongst the top 10 companies within the Tata Group. The company's turnover for FY 17-18 was Rs. 6,602 crores with an ROCE of 20%.

The company is regarded as a pioneer and leader in the engineering and air-conditioning segment. Its operations are divided into three independent business clusters - Electro-mechanical projects & services, Engineering products & services, and Unitary cooling products. All of the company's capabilities are ISO 9001-2015 certified.

Voltas manufactures and markets India's No.1 brand of Air Conditioners, with a substantial lead over numerous multi-national competitors. It also has a lead position in commercial refrigeration products and has forayed into Fresh Air Coolers, a new proposition in cooling.

Recently the Company has entered in to an equal partnership Joint Venture (JV) agreement with Arçelik A.S.; part of the Koç Group – Turkey's largest industrial and services group), to enter the consumer durables market in the country. The proposed JV will leverage the strong brand presence, and wide sales and distribution network of Voltas. Arçelik will bring to the JV its strong R&D and manufacturing prowess, in addition to a wide product range and global sourcing capabilities. Beko, the global brand of Arçelik A.Ş., has been the fastest growing home appliances brand of Europe for the past 7 years. The complementary strengths of the two partners will help build a sustainable consumer durables business in India. The proposed JV will launch refrigerators, washing machines, microwaves and other white goods / domestic appliances in India. A manufacturing facility will be set up in the country, and the JV will also source products from Arçelik's global manufacturing facilities and vendor base. The JV will have an equity capital of USD 100 million.

For over 40 years, Voltas has been a well recognised engineering, procurement and construction (EPC) contractor in India, the Middle East, South East Asia, and Africa, undertaking iconic electro-mechanical projects encompassing HVAC (Heating, Ventilation, Air Conditioning), electrical, building utilities such as plumbing, fire fighting and security, office complexes, airports, metro-rail, malls, multiplexes, hospitals, ships and power plants. Voltas' India business now includes rural electrification and water treatment projects as well. The company has repeatedly won prestigious awards such as the MEP Middle East award for 'MEP Contractor of the Year' and 'Overall GCC Project of the Year'. The company has successfully undertaken and completed various specialised, multi-million dollar turnkey projects in the Middle East, South East Asia, the CIS countries, Africa and SAARC countries. These include electro-mechanical works for Burj Khalifa, Ferrari Experience, and Yas Marina F1 racetrack in UAE.

Voltas' engineering products and services span the spectrum from design and sourcing to installation, commissioning, parts supply, training and maintenance of textile machinery, and mining and construction equipment. In this segment, Voltas represents over 35 globally renowned manufacturers. In Mining & Construction Equipment, the Company undertakes sales and service activities for a variety of clients. In Textile Machinery, the Company's services span an entire spectrum from plant design and sourcing to installation, training, parts supply and maintenance.
